## Questions about starting treatment

- What are all my medication options?
- What's the difference between these options?
- Which one(s) would you recommend for me? Why?
- What should I expect when starting this medication?
- For how long would I need to take this medication? What should I be aware of?
- How many pills would I have to take? When should I take my medication?
- Can I take these medications with other medications I'm already taking?

## Questions about BIKTARVY

- Is BIKTARVY an option for me?
- How does BIKTARVY work?
- How is BIKTARVY different from other medications?
- What should I expect when I start BIKTARVY?
- How is BIKTARVY taken?
- Will BIKTARVY interact with any other medications I'm taking?
- Would you recommend BIKTARVY for me?
